C05 Clinical- Hearing Screening

Procedure

- To obtain the most meaningful and accurate results, it is essential that the test be conducted in a room that is relatively free of unwanted sound.
- Medical assistant will conduct the screening upon the order of a provider using the correct fitting probe cover.
- Results should be printed out and given to the ordering provider or documented clearly in the chart and school form, if applicable.
- Notify provider or supervisor if the hearing screener is not functioning correctly or the patient was uncooperative.
