

## **C10 Clinical- Immunizations, Availability**

**Policy:** Vaccine solutions (individually or in combination) typically available for use in this office are:

- DTaP
- DT (under 7 years of age)
- Td (over 7 years of age)
- MMR
- HIB—conjugated
- IPV
- Hep B
- Varicella
- Pneumovax
- Prevnar
- Influenza

### **Procedure:**

Consent for immunizations shall be documented in the medical record.

When immunizations are not available, e.g. due to shortage, the recommendations from the ACIP, CDC, and/or AAP will be followed. YCHC will develop and implement a method of patient recall tailored to the shortage situation.
